Subject: Area 40 RDIP#2 Remedy Implementation

Hi Everyone – Aerojet Rocketdyne, Inc. (AR) has selected Odin Construction to implement the RDIP#2 remedies, including installation of the Permeable Reactive Barrier (PRB), installation of fencing to prevent access to the restricted area, and revegetation of the area following impacts. Zero valent iron (ZVI) is being ordered and we anticipate PRB installation beginning in early October. Ancillary activities, such as establishing an on-site area to store the ZVI and initial grading work to create a level area along the PRB alignment will occur at the site between now and early October.

Please let me know if you have questions. Thanks, Chris

Christopher M. Fennessy, P.E.
